Subject: RE: Request for NMP info

Thanks Ana – perhaps the most efficient solution is for you to send me what you wish to use. I can then trace the docs to the original suppliers.

Mark,

Thank you for your e-mail. Yes. The presentation is one of the documents we would like to use. However, the original e-mail had several SDSs, and we probably would like to use all of them to demonstrate a range of values.

Thank you,
Ana

Subject: Request for NMP info

Hello Ms. Corado,

Not certain if I've advised you of this, but I have assumed Jonathan Stewart's role with regard to NMP issues as they affect NEMA members and he relayed your recent correspondence to me. You told him the agency is interested in using some of the information NEMA had provided for the risk evaluation of NMP, particularly *"information from the SDSs and the employee monitoring from Rea."*

In your message you referenced an email Oct 2017 that had two attachments, which I presume are the documents you wish to draw from for the risk evaluation. Because the email is so old, however, we are unable to identify those attachments. I BELIEVE they are what I've attached here – can you confirm these are the documents you are referencing? If you can do so I will proceed immediately to confer with the companies to determine what portions of documents are proprietary.

Thanks and best regards,
Markk
